THE HYBRID ARTIST

THE ARTIST

DRUMMER FIRST

Liam Bongo is a percussion-driven DJ and producer channelling 25 years behind the drums into a modern, high-energy take on House music.

Born in England and raised in the Canary Islands, his musical inspiration is influenced by Afro & Latin sounds. Having started as a drummer, Liam has built that identity outwards into a live performance format where electronic grooves and organic percussion sit in the same set.

THE SHOW

A single-artist hybrid set: Liam mixes the records and plays live percussion straight over them, reading the floor and pushing the energy in real time. It scales from an intimate club room to a festival main stage — same show, same one-person setup, no changeover.
